# Understanding the Process of Change and LCI Forward

#### **LCI** Forward

LCI Forward provides a strategic framework to help clubs to strive for excellence. This plan was developed by the Long Range Planning Committee of the International Board of Directors and guided by the association's vision statement "To be the global leader in community and humanitarian service". It is a platform for action that will help your club develop priorities to significantly expand humanitarian service, improve current operations, and pursue new ways to unite people in Lions' service.

LCI can give us this vision, but it takes application at the club level to make the vision a reality.

#### **Primary Goal**

Improve the lives of at least 200 million per year by FY 2020-21 through expanded humanitarian service – tripling of our service – as measured through the Service Activity Report system.

#### **Enhance Service Impact & Focus**

The number of people in need – the visually impaired, disabled, people needing urgent assistance and often life-changing medical assistance – has increased sharply (by four-fold) since 2010-11, and is increasing every year.

STRATEGIC MARKETING PLAN

#### **Reshape Public Opinion** & Improve Visibility

The need for voluntary humanitarian service is higher than ever and society needs to be reminded of our impact and what people united in service can do to meet rising needs throughout the world.

We are the largest voluntary service organization in the world. Each club needs to continually innovate to harness technology and find new ways to improve our effectiveness in this everchanging world.

#### **Improve Membership Value** & Reach New Markets

People have more choices today to serve and give back to their community/people in need. Lions need to continue promoting new ways for caring people to be involved in service and provide options for service engagement which are flexible and mesh with today's busy life-styles.

This program outlines these areas of focus with targeted and diagnostic tools that identify areas of potential improvement, set meaningful goals and utilize techniques and strategies that will help your club achieve success in each of these areas.

## Determine the need for change

The assessments that follow were designed to help club members determine possible areas of improvement and are focused on the areas featured in LCI Forward. Each assessment includes a series of questions to help focus thought and guide discussion as well as resources designed to support club development. The assessments can be completed as a group in a workshop setting or individually at home. Note that the electronic version of this workbook includes links to materials designed to drive success in each area.

**STEP** 

## **Set Goals**

Once the assessments has been discussed, the club will need to establish SMART goals. This will help the club determine priorities and will be the basis for future planning. This exercise can also be completed individually and then discussed as a group to determine priorities.

#### **Setting SMART Goals**

Each goal should be...

#### **Specific**

Goals should be as specific as possible to ensure that the objective is clear.

#### Measurable

Benchmarks and progress must be measurable.

#### **Actionable**

Each goal must be achievable.

#### Realistic

Goals should be challenging but not unrealistic.

#### **Time bound**

Each goal should have a timeframe that outlines a schedule of progress.

## **Develop Plans**

#### **Establish Priorities and Assign Goals**

Once the goals are established, determine long and short-term priorities and assign goals to committees or task forces. You may find some goals are easily assigned to a standing committee, while others may need special attention or the support of multiple committees. For example, membership goals may be easily assigned to the Membership Committee while others, such as ensuring new member involvement, may involve several initiatives. In some cases the formation of new task forces and committees may be needed. In any case, encourage all club members to become involved in finding solutions.

#### Prepare and Plan for Change:

Once goals are assigned, teams should meet to discuss the efforts and resources needed to accomplish the goals. The following forms may help team members organize their thoughts.

The **Planning Process Workshee**t helps determine the tasks and resources that are needed to successfully accomplish the goal.

The **Action Planning Worksheet** helps the team outline detailed steps to accomplish the goal and timeline for completion.

The team should complete both forms for each goal.

#### STEP

## Implement and sustain change

#### **Implementing Change**

Setting and achieving benchmarks – To keep plans moving forward, track the achievements of benchmarks. Each benchmark should have an agreed upon deadline. Regular status reports should be included in every club meeting until completion. Remember to celebrate the benchmarks and the end success!

#### **Sustaining Change**

Change often results in more change. During the implementation process new opportunities are often found that may be incorporated into new or existing plans. Involve all club members in the process so they can contribute and be involved.

#### **Tips for Effective Change:**

#### **Change is a Group Activity**

Build commitment and enthusiasm for change by involving everyone from your new to the most senior member. Everyone has a common interest in the success of the club.

#### Change should be celebrated

Encourage members to celebrate milestones so members are inspired to continue.

- Go through the assessments each year to find new ways to improve the club. Feel free to add new questions that provide further insight to the needs of your club and your community!
